People often remember Atomwaffen Division by its characterization by our enemies. Obviously, AWD was secretive. Naturally, a lot of people (especially normie pseudo-journalists) like to fill in the blanks based off of relatively minor details. AWD was characterized as a group of Satanists because of the vocal minority of members of the Order of 9 Angels (O9A), the most notable being Patrick McDonald - more commonly known as the artist Dark Foreigner. McDonald was never a member of AWD (in spite of what Canadian authorities claim), but he was active on IronMarch. I'm not sure if he was an actual O9A member or simply dabbled in the aesthetic, he was also known to make stuff on request for others like AWD so he may have made his O9A stuff on commission. Regardless, the Dark Foreigner's artwork was fairly well known in the movement back in the day, and these O9A posts didn't exactly give us great optics.

As I said, the O9A guys were a vocal minority. I'll say, I never actually met a single person in AWD or The Base that were actually members, but I know there was a few that at least dabbled in it.

I won't go too deep into the whole Satanic Panic stuff regarding AWD, most people in the movement know it was overblown massively. The American Futurists' article 'Satanic Panic' covers this well. What most don't know is that it was inorganically created by the FBI in order to discredit that militant side of the NS movement, with massive blowback.

Svnvster...

The Order of 9 Angels is actually a wild group. I own a bunch of their books like Iron Gates, Bluebird, & all the classics from Anton Long. I like their lore, it's pretty cool. That being said, it's completely retarded. They claim to be founded by witch covens in Wales. It's very goofy. I would recommend at least reading their Wikipedia page, it's neat.

Although often characterized as Nazis, this isn't true. They're just edgelords. After 9/11, the supported Jihadists for the same reason. A part of their ideology is to spend time with extremist groups to break away from their comfort zone, or something. They usually aren't actually well versed in philosophy or politics.

They're also, 100 percent of the time, massive spergs. At least the modern nexions. They never shut up or stop taking cringey pictures of their altars or them larping in the woods. They're often brown. The O9A has a number of splinter groups like MKU or Temple ov Blood, called nexions.

CounterIntel Program

COINTELPRO started in the 50's & allegedly ended in the 70's. I say allegedly because the tactics themselves are still fully in use, just not under the same name & using more legal workarounds. The original program was mainly aimed at leftist groups within the Civil Rights Movement, due to the fact that they were inadvertently supporting the Soviets. Gradually, the FBI started focusing on all anti-System organizations, which included pro-White groups like the KKK & State's Rights Party.

An important person in this was Gary Thomas Rowe Jr. Rowe was a member of the Klan, as well as an FBI informant. He also performed the role of agent provocateur, meaning he tried forcing other Klansmen to plan violent actions that would actually be traps & sting operations. He was paid handsomely by the FBI, and in the course of his career killed several people- including four children in a Church bombing. His actions, and lack of justice due to gaining immunity, was among the most controversial figures in the COINTELPRO investigations. This would become a pattern for the FBI.

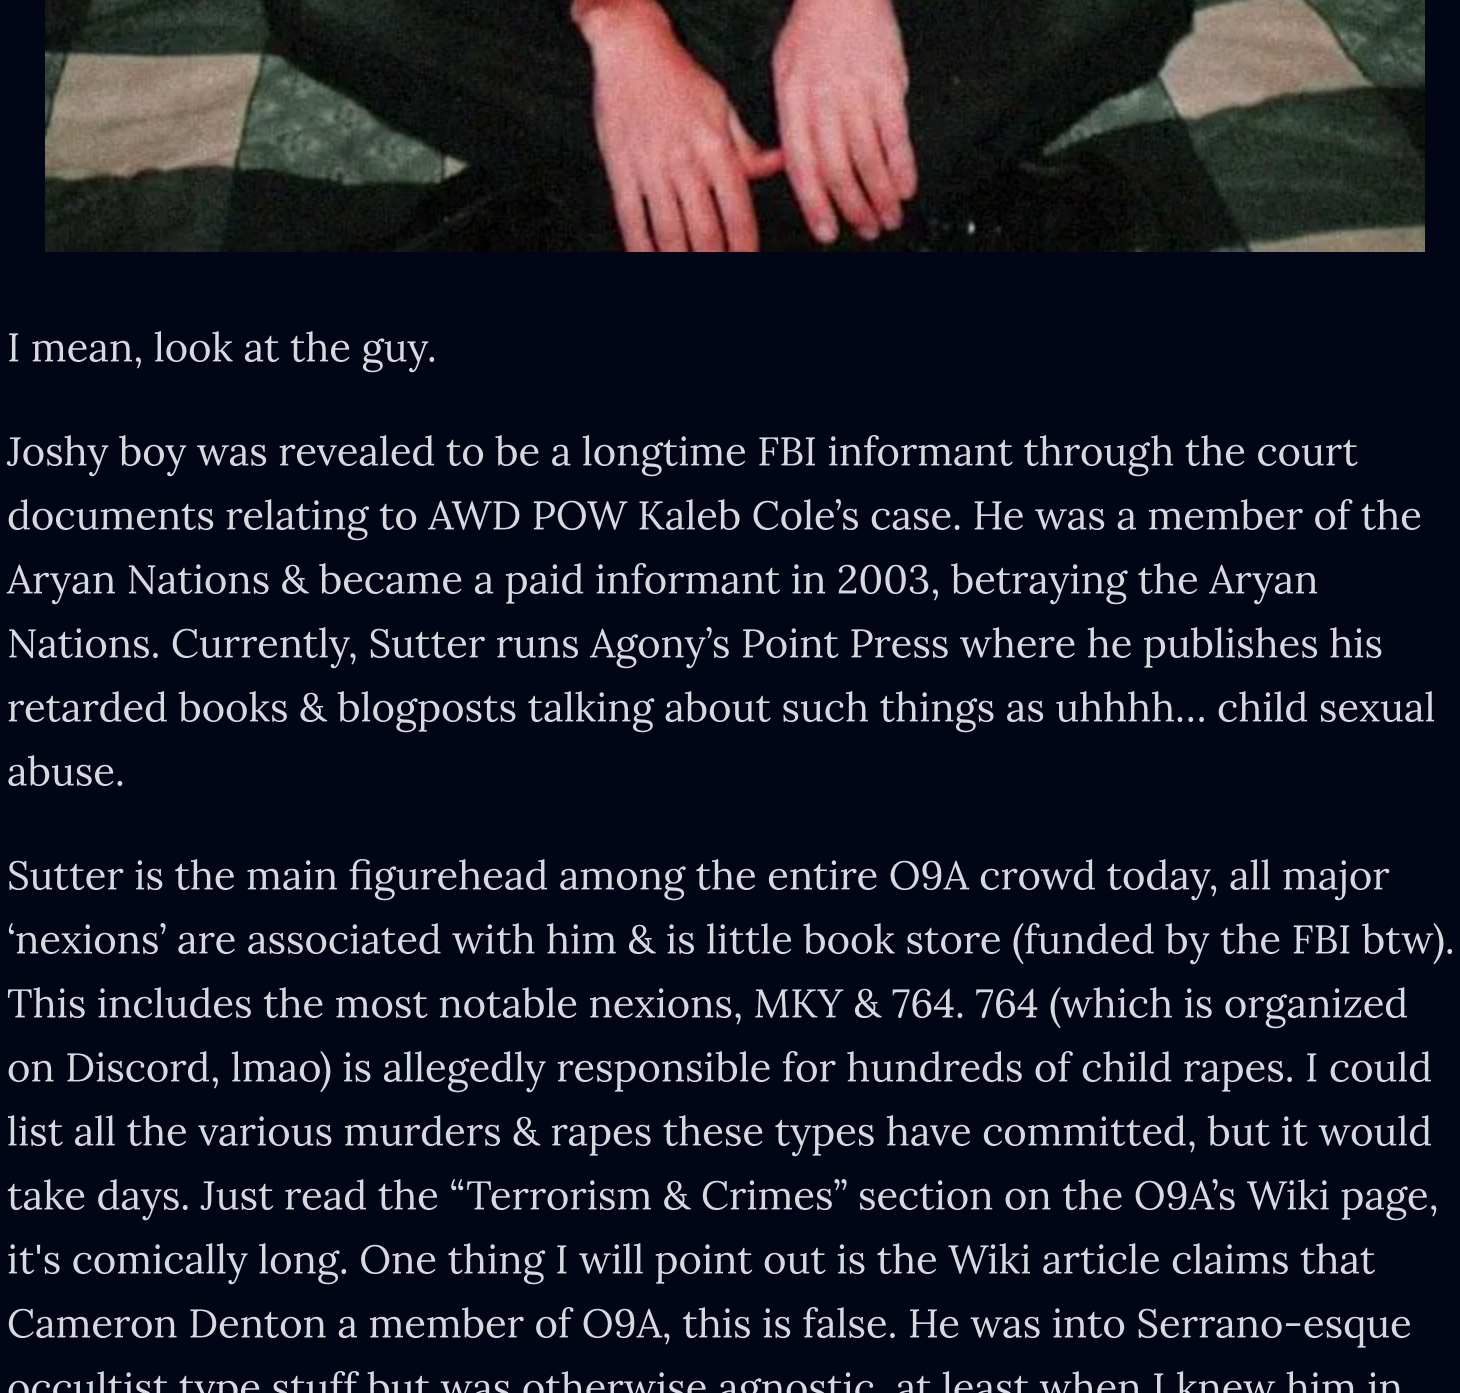

The following is the FBI's stated goals for COINTELPRO ops:

1. Create a negative public image for target groups (for example through surveilling activists and then releasing negative personal information to the public)
2. Break down internal organization by creating conflicts (for example, by having agents exacerbate racial tensions, or send anonymous letters to try to create conflicts)
3. Create dissension between groups (for example, by spreading rumors that other groups were stealing money)
4. Restrict access to public resources (for example, by pressuring non-profit organizations to cut off funding or material support)
5. Restrict the ability to organize protest (for example, through agents promoting violence against police during planning and at protests)
6. Restrict the ability of individuals to participate in group activities (for example, by character assassinations, false arrests, surveillance)

Sound familiar? Yeah, it's exactly what happened to Atomwaffen from 2018 to 2020, as well The Base immediately after. It's also currently happening to Patriot Front, who the FBI sees as essentially the same group as AWD. These "counterterrorism experts" aren't very smart, if you haven't noticed.

This is what people mean when they talk about fed PSYOPS. The people who try & fedjacket groups like Patriot Front & Blood Tribe are, ironically, the ones actually perpetuating the PSYOP.

Enter Joshua Sutter

I mean, look at the guy.

Josh boy was revealed to be a longtime FBI informant through the court documents relating to AWD POW Kaleb Cole's case. He was a member of the Aryan Nations & became a paid informant in 2003, betraying the Aryan Nations. Currently, Sutter runs Agony's Point Press where he publishes his retarded books & blogposts talking about such things as uhhhh... child sexual abuse.

Sutter is the main figurehead among the entire O9A crowd today, all major 'nexions' are associated with him & is little book store (funded by the FBI btw). This includes the most notable nexions, MKY & 764.764 (which is organized on Discord, lmao) is allegedly responsible for hundreds of child rapes. I could list all the various murders & rapes these types have committed, but it would take days. Just read the "Terrorism & Crimes" section on the O9A's Wiki page, it's comically long. One thing I will point out is the Wiki article claims that Cameron Denton a member of O9A, this is false. He was into Serrano-esque occultist type stuff but was otherwise agnostic, at least when I knew him in the SeigeKultur days.

So why is this important? As I said, Joshua Sutter is both the primary figurehead of the O9A at large & a known FBI informant for over 20 years. Anyone associating with him or his ideology is either a fed or a retard, probably both.

Atomwaffen's Satanic Panic back in 2018 was very poorly handled, but by 2020 it was well known in the movement that these retards were not to be associated with at all. At this point, most O9A types are now openly hostile towards the major accelerationist groups like Injekt Division & The American Futurist. Joshua Sutter is probably a useless asset for the FBI at this point, as he's so well known.

Also, the FBI has paid this faggot several hundreds of thousands of dollars. They directly fund all of his books & blog posts about child sexual abuse which, as stated before, has real world implications. A few days ago, WIRED published an article based off the journalism of Jake Hanrahan. Jake has some pretty cringy misunderstandings about AWD, but he generally does better than most of his ilk. I also quite enjoy WIRED & their exposé type stuff. Not because I care but because they're surprisingly good at getting info. They're article on the "crimes" of DEVGRU (aka Seal Team 6) is a great read, even if all of these crimes were justified.

Regardless, this is the first time that the Josh Sutter situation has entered the mainstream. I've already seen it gathering steam on Xwitter, so this will probably end up being a pretty big deal in light of the general anti-FBI sentiment building in even the moderate RW.

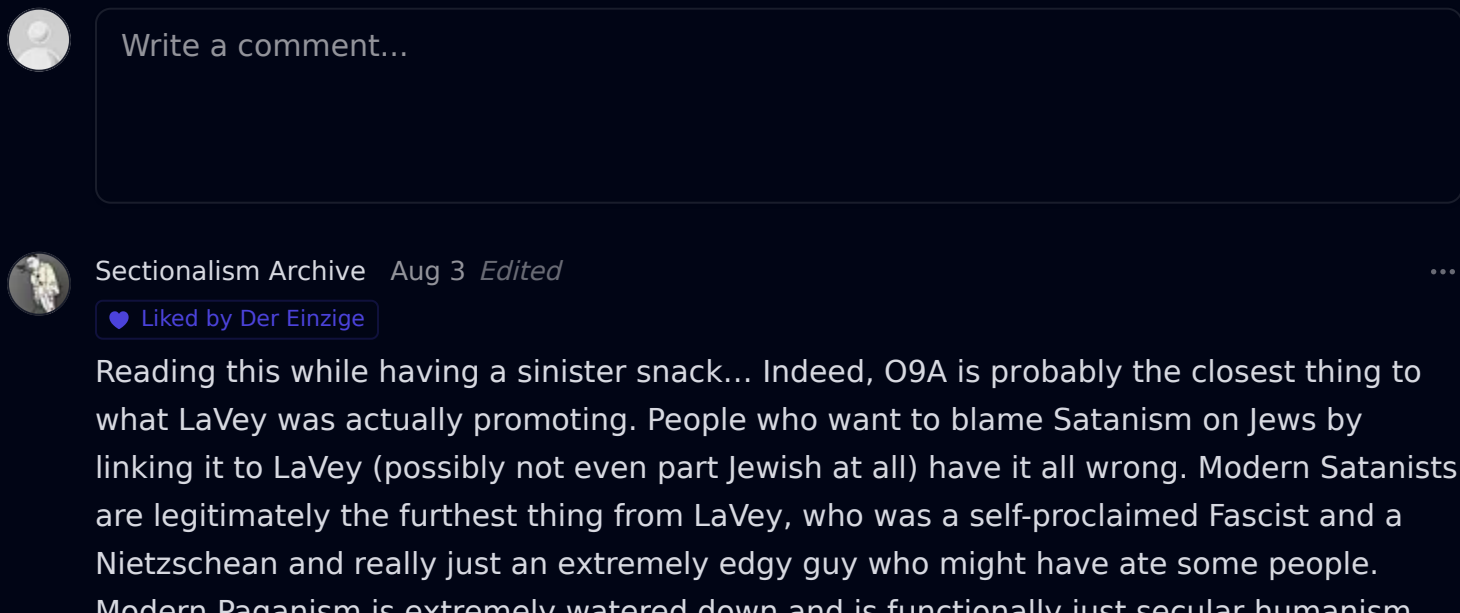

Takeaway

Now that my AWD apologism is out of the way, what does this mean? Firstly, this is modus operandi of the FBI when it comes to radical groups. AWD & The Base are the most notable examples today, but this was seen the Aryan Nations & KKK as well. I'm sure there's a number of lefty groups getting targeted too, although not many as even AntiFa types are tacitly pro-System nowadays.

It's actually pretty easy to avoid these types once you know what to look for. Hell, just reading what a agent provocateur is will give you enough info most of the time. The American Futurist has an article titled How to Spot Feds. If they're trying to convince you to help them shoot up your local substation, especially if they don't actually want to take part, they're likely trying to entrap you. They'll also often appear pretty motivated ideologically, but usually not very knowledgeable about it. They don't actually buy into it, they're just playing a part.

As I said earlier, the rumors & such that hit AWD & The Base from 2018 to 2021 was entirely pushed by FBI operatives & people who are too easily manipulated. This is currently happening to Patriot Front. It will happen to the next big name WN group. All this means is that we must spread awareness of these COINTELPRO operations (which has been successful in recent years) & be sure to vet out spergs, degenerates, and otherwise subversive or useless individuals. This is easy for headline groups, but mass movement types always have issues in this department.

Once you grow up, it becomes pretty easy to tell who's genuine & who isn't. Most of the victims of these ops are younger dudes that don't have that sort of intuition yet. Developing this skill is key component to both maturity & ideology.

Reading this while having a sinister snack... Indeed, O9A is probably the closest thing to what LaVey was actually promoting. People who want to blame Satanism on Jews by linking it to LaVey (possibly not even part Jewish at all) have it all wrong. Modern Satanists are legitimately the furthest thing from LaVey, who was a self-proclaimed Fascist and a Nietzschean and really just an extremely edgy guy who might have ate some people. Modern Paganism is extremely watered down and is functionally just secular humanism with a scary mask on. Same thing happened with Wicca, it used to be a more hermetic-influenced religion which promoted binary gender roles and was against homosexuality. Today it is pozzed to hell. Not that I support LaVey or old Wicca, I am against both but they're so mischaracterized it's unreal
COINTELPRO during its heyday did a lot of good work deleting black power movements albeit. But it was all for nought.

What's that 333 shit from on the title graphic? I had ordered a book from one of those sketchy Tempel ov Blood ebay pages that had that insignia on it. Was actually a really cool O9A-esque book with some "serial killer imitation ritual" shit, a section on uniforms, totally autistic shit. I loved it. I emailed the proton it included and they were all mysterious saying some shit like "we will produce more manuscripts" and then never responded. Always wondered if it was talking to a federal agent. This was probably six years ago now. Anyway, great article. Always glad to see people from IronMarch pop back up randomly over the years.
